

Neurosis

January 15th - March 15th, 2023
Project Gallery V

New York City, N.Y., January 15th, 2023 | *Neurosis* is a multi-media online group exhibition curated by Bethelihem Gebresilasie.

This exhibition features the work of Yerrie Choo, Cecelia Condit, Seth Cosford, Erica Eyres, Starkey Fossgreen, Simon Floris, Joana Azevedo Rodrigues, Liev Sibilla, Léa Tissot & Anna Sougy, Amber Tutwiler, and Klara Vertes.

"Neurosis serves as a blanket description for behavior that exists outside the norm of regularity. The term itself begs the question of what is normative, and what exactly lies outside of it?..."

In artistic expression, neurosis exhibits as contrasts, an orderly disorder, a straddling of contradiction. Neurosis is dysfunctional, but not unbearable. It is living under constraints, though awry."
